

## 2023 List of campgrounds inside Yosemite National Park

All campgrounds will require a reservation from approximately April through October. First-come, first-served camping is not available during this time. Any canceled reservations will be available on Recreation.gov until the arrival date.

All reservations for North Pines Campground were available via the early access lottery. Any reservations still available after the lottery will be available on the regular on-sale dates five months in advance on the 15th of each month.

**Tuolumne Meadows Campground** is undergoing a major rehabilitation project and will remain closed in 2023 and possibly 2024, depending on weather/length of construction season.
